# NESS - New England Slalom Series

## ***Who can enter the slalom races?***

*All boats, ages and abilities*, including first-time racers, are invited to participate! You don't need a special race boat! Classes include but are not limited to Race and Recreational boats, K-1, C-1, C-2, OC-1, OC-2, Men's, Women's, Masters, Juniors and Cadets. The best reason for participating in the New England Slalom Race Series is that it's fun, but it also gives you a chance to meet and socialize with other paddlers and the rivers they haunt, to paddle places other than your home rivers.

Slalom racing is an opportunity to learn, improve and hone your paddling skills. Become a more confident paddler through

whitewater slalom racing. For over 45 years, the New England Slalom Series has introduced many paddlers to slalom racing as a way of teaching paddling techniques and increasing your fun on the river.
